Mr. Chris Faulhaber
Granite Construction Company
PO Box 30429
Salt Lake City, UT 84130

Dear Mr. Faulhaber

It is my pleasure to officially welcome Granite Construction Company as a Partner in our Clean Utah program.

Your four (4) facilities have successfully met our compliance and EMS requirements. We have accepted your environmental improvement projects including:

1. Warm mix asphalt system.
2. Belt press and dewatering screen at Cottonwood facility.

We request that you file an annual report documenting your progress on both projects in January of each year, starting in 2011. Once a project has reached its logical conclusion, you will need to propose others in order to maintain your Partner status.

As an incentive requested by you, DEQ (where possible) will fast track permit applications and modifications. Reduced inspection priorities have been requested from the Division of Air Quality and from the Division of Water Quality. The Division of Water Quality indicated that inspections at your facilities have not been conducted for three (3) years and it will be necessary for those to be conducted this year. The facilities must maintain all recordkeeping and other requirements.

Mr. Chris Faulhaber
Granite Construction Company

Designation as a Partner entitles your facility to use the Clean Utah logo in promotional and other materials. The rights to this logo apply only to these four (4) facilities. DEQ will also update information about your company on our Clean Utah website. We are currently in the process of preparing a press release announcing your Partner Level status. We will present a plaque to you in the near future. Paul Harding will be in touch with you to make the arrangements.

I look forward to our continued association.

Sincerely,

A handwritten signature in black ink, appearing to read "Amanda Smith". The signature is fluid and cursive, with the first name being more prominent.

Amanda Smith
Executive Director
