Carl Farley
IM Flash Technologies
1550 East 3400 North
Lehi, UT 84043

Dear Mr. Farley

It is my pleasure to officially welcome IM Flash Tech as a Partner in our Clean Utah program.

Your facility successfully met our compliance and EMS requirements. We have accepted your environmental improvement projects including:

1. Hazardous Waste Reduction - Decrease hazardous waste generation by 20% over the next two years.
2. Solid Waste Reduction – Reduce office paper used on-site by 20%

We request that you file an annual report documenting your progress on both projects in January of each year, starting in 2012. Once a project has reached its logical conclusion, you will need to propose others in order to maintain your Partner status.

Designation as a Partner entitles your facility to use the Clean Utah logo in promotional and other materials. The rights to this logo apply only to this facility. DEQ will also update information about your facility on our Clean Utah website.

We can also offer your requested incentive of assistance in expediting permitting on future permits. We are not able to grant a "variance" from the requirement to label hazardous waste tanks with an "accumulation start date." This requirement is in federal rule and we are not able to allow a less stringent option.

We are currently in the process of preparing a press release announcing your Partner Level status. We will present a plaque to you in the near future. Paul Harding will be in touch with you to make the arrangements.

I look forward to our continued association.

Amanda Smith
Executive Director

Cc Paul Harding, DEQ
Terry Beebe, Utah County Environmental Health
Kaye Mathews, EPA Region VII
